Nourishing Body Butter

Immediate moisture and lasting comfort for silky soft and naturally glowing skin

250ml e 8.5Fl.Oz

Q&A

Q: What is the difference between the body butter and the body lotion?

A: Body butter and body lotion are both moisturizers. The body lotion has a higher water content and more liquid consistency, while the body butter is thicker and creamier. As such, the body butter is ideal for those with dry and very dry skin.

Q: Can I use this product for my face?

A: Since it's so thick and concentrated, we recommend avoiding putting it on your face.

Q: What if I do not have dry skin?

A: Even if your skin doesn't feel dry, it's important to moisturize every day to keep your skin hydrated, balanced, healthy, and working at its best.

Energize
Mud Shampoo

Daily care shampoo, gently cleanses while restoring moisture for healthy-looking hair

400 ml e 13.3 Fl. Oz

Q&A

Q: What is SLS? and why Seacret's Mud Shampoo is SLS free?

A: Sodium lauryl sulfate (SLS) is a common ingredient in many shampoos that creates a thick, foamy lather. Although shampoo that contains this lathering agent may clean hair effectively, it may also dry the scalp or strip color from dyed hair.

Q: Why does our choice of shampoo matter?

A: Shampoo is the foundation of any haircare routine. A well-formulated shampoo is key for clean, healthy, and shiny hair.

BOOST YOUR KNOWLEDGE

TIP #1

Massage the shampoo into your scalp and hair, from root to tip.

TIP #2

After rinsing give your hair a cold wash for 5 sec. This will revive roots and add extra shine.
