HYPOALLERGENIC TESTED

PARABEN FREE

SLS FREE

NOT TESTED ON ANIMALS

TIP

Moisturisers are important for people who use strong cleansers to treat oily / problematic skin, as cleansers often strip away the skin's natural moisture. As a result, the skin responds by producing more oil to protect itself. Using a moisturiser helps hydrate the skin and decreases oil production in the epidermis.

ACLEAR FACIAL WASH

Skin condition

Oily, problematic skin.

Product description

Creamy facial cleanser that effectively washes away bacteria and impurities that may cause the appearance of blemishes.

Directions

Apply cleanser on wet skin, gently massaging in circular motions until a creamy lather forms. Rinse well with lukewarm water. For best results, use twice daily.

Key Benefits

- Helps control sebum production.
- Refreshing extracts help cool and revive skin.
- Controls and eliminates excess oils.
- Removes traces of dirt and makeup.
- Provides clear, healthy-looking skin.

Best used with

Aclear Facial Toner
Essential Moisture Face Cream

Key ingredients

FluidiPure™ 8G: Controls sebum production and helps fight against microbial proliferation.

Salicylic Acid: Stimulates natural exfoliation, helping to clear impacted follicles and minimise acne formation.

Dead Sea Minerals: Naturally invigorating minerals help rejuvenate the skin and enhance softness.
