- NOT TESTED ON ANIMALS

TECH Coating technology transforms the way we remove mascara! The formula coats lashes and sets without smudging, clumping or smearing. Due to the special technology, the coat structure slides off easily with warm water.

NON SMUDGE MASCARA

CONE-SHAPED BRUSH

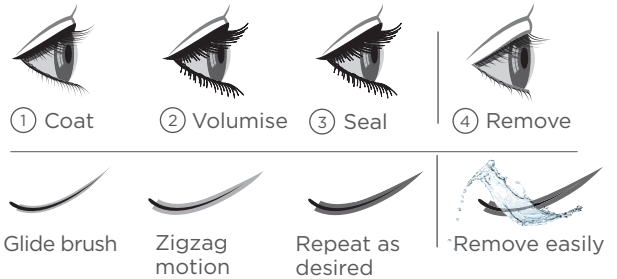

- BLACK**
- 
-  EASILY REMOVED WITH LUKEWARM WATER

Product description

A long-wearing, smudge free mascara that volumises and separates lashes. Extremely easy to remove with just warm water.

Directions

Glide brush, volumise and separate from root to tip with a gentle zigzag motion to catch even the smallest lashes. Repeat as desired for a bolder luscious look. Remove with warm water.

Benefits / Top retailing points

- Coating technology formula - loosens with warm water and allows formula to slide off easily.
- Long wear mascara that won't smudge, smear or clump. NO PANDA LOOK!
- The dual-purpose brush has a precision tip that evens lashes, and a rounded base to easily achieve maximum fullness.

Best used with

CC Cream

Key ingredients

Dead Sea Minerals: Naturally invigorating minerals to help rejuvenate the rashes.
