**FAQ's:****Q. What is a pre-launch period?**

A. The period during which enrollment in the country is open to all Seacret Independent Agents, and Limited to local Independent Agents (Colombians enrolling in country). The Pre-Launch period will be promoted by Seacret to the Seacret Community. The Pre-Launch period ends via a set time table. Pre-launch does not constitute a contract with the Independent Agents and is open to give the market the ability to hold a position with seacret. There is no cost associated with pre-enrollment during the pre-launch period.

Q: I have registered in Colombia (Colombian Citizen), why cannot I enroll Independent Agents in other Seacret markets?

Q. Do I have to purchase anything during the Pre-Launch Period?

A. No purchase is required during the pre-launch period. You are simply holding your position until the Founder's period where you will be given the opportunity to purchase the founders pack and to secure your position with Seacret

Q. What happens to my position if I do not purchase a Founders Pack?

A. All pre-launch Independent Agents are required to purchase a Founder's Pack to keep their position. If a Founders Pack is not purchased your pre-launch spot will be removed from the organization. Independent Agents can always re-register with Seacret Direct Colombia SAS after the founder's period. But at this time the Registration fee will not be waived.

Q. The Income Potential Calculator in the Back office says I am earning Money, how do I get paid?

A. The Income Potential Calculator is simply an estimation of what you could potentially earn with Seacret during the Founders Period. This estimate is only showing what you may potentially earn on the purchases of a Founders pack by your personal enrollments as well as the other enrollments in your binary tree. The estimation is assuming that a certain percentage of the independent Agents in your team secure their position and upgrade by purchasing the Founders Package during the Founders period. This calculation is not an actual final commission calculation and is only calculating potential earnings from Fast Start and Rank Advancement Bonuses as well as Binary Team Commission and does not factor in any other elements of the compensation plan.
